PROJECTS

Sparkle Home – Smart Cleaning Service System   2021
- It is a web-based platform.
- Users can book cleaning services for homes and offices.
- Platform helps to find verified and trusted cleaners.
- Users can schedule cleaning appointments easily.
- It supports secure online payments.
- Everything can be managed from one dashboard.
- Goal is to provide clean, hygienic, and affordable services to all users.

Kalyan Jeweller Projects   2020
- This is a mini Python project.
- It is made for Kalyan Jewellers billing system.
- The program takes item name from the customer.
- It also takes gold weight as input.
- Bill is calculated using gold rate + making charges.
- It displays item details and total payable amount.
